Threat Hunting: What it Is and Isn't

ElevateIT: Houston Technology Summit • September 14, 2022

Comprehensive overview of threat hunting, covering detection engineering, differentiation from monitoring, pen test triggers, and the importance of strategic approach. Discussed SOC integration and advanced hunting techniques.

[Conference](#)[Threat Hunting](#)[Detection Engineering](#)[SOC](#)

Podcast Appearances

SIEM vs XDR Panel Discussion

Virtual Panel • 2024

Panel discussion comparing SIEM and XDR technologies, exploring their roles in modern security operations.

[Panel](#)[SIEM](#)[XDR](#)[Security Tools](#)

Threats and Danger: Threat Hunting

Forged in Security Podcast • October 17, 2022

Discussed proactive threat neutralization approaches using data, tools, and logic, drawing from extensive cyber intelligence background to inform threat hunting strategies.

Podcast Threat Intelligence Threat Hunting

The Importance of Threat Hunting

Let's Talk SOC (Cybercrime Magazine Podcast)

Explored threat hunting fundamentals, intelligence-driven approaches, post-compromise activity detection, and methods for measuring hunting program success.

Podcast SOC Threat Hunting Metrics

Counter Threat Unit Spotlight

Two Minute Tuesday w/ Blair & Allyssa • 2021

Interview discussing role as a threat researcher, sharing insights on threat intelligence, threat hunting, and personal experiences including encounters with notable threats like the I Love You virus.

Interview Threat Research Career Journey

Webcasts

Threat Hunting 101: Building and Maintaining a Threat Hunting Program

Comprehensive Training Series • 2021

Delivered an extensive six-module training series designed to guide organizations through establishing and scaling their threat hunting capabilities. The curriculum covered program foundations, operational frameworks, tool selection, and advanced hunting techniques. Special emphasis on practical implementation strategies, ROI measurement, and building internal expertise versus leveraging external partnerships.
